

Fish mobile

The Primitive Methodists were fishers of people as Jesus called us to be.

They went out into towns, villages, fields and factories, and to the seaside to tell people about Jesus.

You can make a fish mobile to celebrate all the fishers of people!

- Decorate the boat-shaped top of the mobile. You can make your own design or use the fish template.
- There is also a figure of Jesus you can include in your design. Jesus's friends were fishermen and he cooked them breakfast on the beach.
- Cut rings from a loo roll tube, then cut through the ring to make a bendy strip.
- Make 2 cuts half the width of the bendy strip each end to make a tail that will slot together. You may need some help with this.
- Decorate the fish. Make a hole in the fish and thread them onto lengths of yarn and attach to the boat shape.
